VISION

Our vision is a society where every senior feels inspired to redefine their potential, with the Wisdom Warrior Challenge as a catalyst for change across the U.S.

MISSION

Wisdom Warrior Challenge empowers seniors through health and fitness education and community support, fostering a culture of health that endures beyond our yearly events.

Founded by Linda Borgmeyer, a passionate advocate for senior wellness and an experienced Occupational Therapist, the Wisdom Warrior Challenge (WWC) stands as a national event that celebrates the strength and spirit of seniors from 50 to 105 years old. WWC is more than a competition; it is a movement that embraces inclusivity, offering specialized divisions for participants with mobility aids, ensuring everyone has the chance to compete and triumph.

ABOUT US

Our unique event is meticulously designed to be an all-inclusive "box" experience, providing hosts with every necessary resource to conduct a seamless and impactful event at no cost. Participants are not only recognized for their achievements on a local scale but are also part of a grand, nationwide leaderboard that fosters a friendly yet spirited competition between communities. The esteemed Wisdom Cup is awarded to the community that exemplifies exceptional athletic prowess and engagement, creating a legacy of excellence and community pride that endures until the next gathering of champions.

Join us in celebrating the remarkable capabilities of our seniors, and be a part of the narrative that shatters stereotypes and uplifts the community with every race, every cheer, and every victory.
